November 11, 2024

**Dissolution of Bonnieville City**

Dear Residents:

Kentucky Utilities Company (KU) understands that the voters in a November 5, 2024, referendum approved the dissolution of the City of Bonnieville. The city will therefore cease to be an incorporated city no later than noon on Sunday, December 8, 2024. As a consequence, it will be necessary for KU to begin closing the city’s active streetlight account and city hall account.

I am sending you this letter to let you know that, on or after November 27, 2024, KU will close the city of Bonnieville’s streetlight and city hall accounts, disconnect services, and remove the streetlights. Although KU does not wish to disconnect these streetlights, without an active customer of record, service cannot continue.

I am happy to speak with you about the options available to individual customers to take over service for these lights. For example, a local civic organization could assume responsibilities for some, or all the streetlights or individual residents can take over the streetlights outside of their home. Please give me a call at 270-723-7534 if you would like more information about either of these options. Given the time-sensitive nature of this issue, please contact me as soon as possible if you are interested in assuming service for any of the lights that are currently in the City’s name. If you leave a message, please leave your name, telephone number and a message and I will return your call.

Thank you in advance for your cooperation and understanding.

Sincerely,

Kelli Humphrey
